CHARITÉ - University Medicine Berlin

SHORT DESCRIPTION

In the immediate vicinity of the central hospital building, the former operating theater/ITS wing was made available for BIH and Charité research.

THE PROJECT

A complete refurbishment of the existing building created modern and pleasant premises. As a result, the BIH's units and activities, which were previously spread across the city, were bundled centrally and complemented the complementary tasks of the Charité.

SERVICES IN DETAIL

- Aluminum window construction
- Mullion and transom facades made of steel
- Aluminum wall cladding
- Ventilated plaster wall cladding
