Reference

Laborprovisorium Functional Genomics Center Zürich

SHORT DESCRIPTION

The Functional Genomics Center Zurich (FGCZ), a joint research and education platform of the University of Zurich (UZH) and ETH Zurich, will provide space for 80 laboratory staff and scientific equipment on a total area of approximately 3000 m^2.

THE PROJECT

The Functional Genomics Center Zurich (FGCZ), a joint research and education platform of the University of Zurich (UZH) and ETH Zurich, will provide space for 80 laboratory staff and scientific equipment on a total area of approximately 3000 m^2. A new type of office concept is planned for the area outside the laboratories, which will enable different forms of collaboration. The new temporary building is part of the first construction phase at the Irchel campus and, with a useful life limited to 15 years, places particular demands on sustainability.

CHALLENGES

- **Complex project:** various stakeholders; complex HVAC works, SGNI / Minergie requirements.
- **Ambitious schedule:** 12 months, pandemic / war background, delivery difficulties

SUSTAINABILITY

- Sustainability/ Certificates: Minergie P Eco + SGNI Gold

FACTS

Location	Winterthurerstrasse 190, Zürich , Switzerland
Status	completed
Construction volume (value of our services)	17 M CHF
Start of construction	July 2021
Completion	September 2022
Building owner	Hochbauamt Kanton Zürich / Universität Zürich, Stampfenbachstrasse 110, 8090 Zürich
Contracting entity	Hochbauamt Kanton Zürich, Stampfenbachstrasse 110, 8090 Zürich
Architect	SAM Architekten AG Hardturmstrasse 175, 8037 Zurich
Build volume	14860 m^2
Living area	3160 m^2
Number of upper floors	2
Number of basement floors	1
Minergie	Minergie P Eco + SGNI Gold

SUSTAINABILITY

MINERGIE P-ECO

Minergie P-ECO

SERVICES

- New constructions
- Health and laboratory buildings
- General/full-service contracting - public use
